

As promised here is the update on our OSA playdowns with regards to the Covid 19 virus and the way it is spreading.

The numbers are growing, not just growing daily but on an hourly basis and the medical community and the government are saying it could still be months before we can even expect to see a turn around.

It doesn't make sense to put anyone at risk and we don't see the point in having to reschedule the event every month when we know things aren't going to improve.

That being said, the OSA Executive has decided to cancel this year's Ontario Play Downs at the end of May.

We will notify the Canadian Congress of our decision to not send a contingent to the Canadian Championships (Should there even be one)

Thank you all for understanding.

Please everyone do what you have to do to stay safe and healthy.

Regards
